All classes will have two components, running at the same time.

Component A) a Google classroom where work will be posted, completed and handed in. There will be typing chats and group work happening amongst students as well as multimedia content.

Component B) will be a video link “Zoom meeting” for the face to face interaction with the teacher and the students.

This requires all students to use a laptop, desktop, tablet, iPad or Chromebook computer for their schooling. Multiple windows will have to be opened at the same time for the student to properly participate in the class. Using a cell phone will be ***incredibly difficult*** to complete the assigned work and participate in the classroom. Students can request a Chromebook at [tbray@emsb.qc.ca](mailto:tbray@emsb.qc.ca)
